

PRESS RELEASE

Versalis and Mazrui Energy Services sign MoU for local production of innovative chemicals for the Oil & Gas industry

Abu Dhabi, November 3, 2017 – Versalis (Eni), a major producer in the polymers and elastomers industry, and Mazrui Energy Services, a leading Oil and Gas Services company in the Middle East, have announced the signing of a Memorandum of Understanding (MoU) that sets forth a game-changing partnership for the local production of innovative production chemicals for the Oil & Gas industry. The partnership will deliver industry driven solutions that support growing customer-led requirement to improve overall production, while significantly expanding Versalis' reach in the UAE and other key, high-growth markets within the Middle East region.

The new partnership is expected to spark innovation and additional R&D in the production chemical markets by maximizing the product development talents and resources at both companies, while driving local manufacturing and efficiency in the partners respective supply chains.

About Mazrui Energy Services

About Versalis

Versalis (Eni) offers a comprehensive portfolio of oilfield chemicals that includes innovative solutions for manufacturing and supply of chemical products for the oil & gas industry. A wide range of proprietary technologies, an R&D that keeps pace with the industry evolution, and customized solutions and after-sales services will provide a unique portfolio and capabilities to customers.

Versalis is the largest Italian chemical company. It is a producer of intermediates, polyethylene, styrenics and elastomers, and recently entered the bio-based chemicals and polymers industry collaborating with leading global biotech companies. The company has been refocusing its strategies on a more market-oriented product portfolio, reinforcing R&D and Licensing, and enhancing global presence.
