REIMAGINE
THE
FUTURE

Strong, lightweight, versatile. Plastic is a unique material. Ever since it was first marketed, plastic has forever changed our habits and tastes. Its potential provides countless solutions capable of embodying the ideas of designers from all over the world.

Today, plastic is also more environmentally sustainable.

ReUp® is the Italian brand that transforms plastic, entirely or partially derived from renewable sources or recycling, into a material destined to continue a story in which new technology helps designers to create furnishings that add a stylish and practical touch to both current and future living space.

The result of a 100% Italian supply chain using chemical and technological processes to create innovative, more environmentally sustainable solutions, ReUp® is a novel way of looking at plastic, of using it and experiencing it.

FEATU- RES AND BE- NEFITS —

MATERIALS CHEMISTRY AND TECHNOLOGY EXPERTISE ENABLES ReUp® TO OFFER A WIDE RANGE OF EXTREMELY-VERSATILE, HIGH-PERFORMANCE PRODUCTS THAT MEET THE VARIOUS REQUIREMENTS OF DESIGN SPECIALISTS IN AN EFFICIENT, SPECIFIC AND MORE ENVIRONMENTALLY-SUSTAINABLE MANNER.

ReUp

Reimagine. Renew. ReUp.

Features of ReUp® plastics include:

Commitment to greater environmental sustainability

In keeping with circular economy principles, all materials are made from plastic entirely or partially derived from renewable sources or recycling.

Flexibility

Readily adaptable to any project without restricting designer creativity.

Resistance

Offering high performance as regards sturdiness, impact strength, wear and tear.

Colour

The raw material is supplied in a vast range of solid and pastel colours, both matt and gloss.

Finish

A huge range of finishes and textures are available, offering designers countless creative possibilities.

Lightness

They can be supplied as bags or sheets of lower weight than other materials used in the design sector.

Safety

Guaranteed by specific sustainability certification, such as ISCC PLUS (International Sustainability & Carbon Certification) for Balance® products and Plastica Seconda Vita (PSV or second life plastic) for Versalis Revive® products.

More environmentally sustainable furnishings, bespoke design

ReUp® works with designers and businesses to develop customised furnishing solutions specifically designed to address customer requirements with a particular focus on environmental sustainability issues. The ReUp® team assists the customer throughout the process: from careful choice of materials to technical design and prototype development, guaranteeing an end result that combines aesthetics, quality and improved environmental sustainability.

WHEN FURNISHING THE WORKPLACE, WE NEED TO STRIKE THE RIGHT BALANCE BETWEEN FUNCTIONALITY, FLEXIBILITY AND PERSONAL WELLBEING. OFFICES ARE TRANSFORMED INTO DYNAMIC, OPEN SPACES, PLACES WHERE ERGONOMICS AND DESIGN COMBINE TO BOOST PRODUCTIVITY WITHOUT NEGLECTING COMFORT. MORE ENVIRONMENTALLY SUSTAINABLE MATERIALS, SOPHISTICATED COLOURS AND MINIMALIST LINES CREATE A WELCOMING, PROFESSIONAL ATMOSPHERE WITH A HIGHLY CONTEMPORARY APPEARANCE.

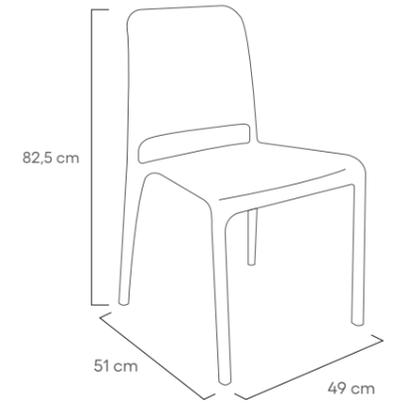

WORKSPACE

Our product range's versatile, high-performance solutions make it ideal when creating sophisticated settings in which to spend quality time. From stylish surfaces to ergonomic features, our products meet comfort and aesthetic requirements, making them ideal for those wishing to demonstrate a commitment to greater environmental sustainability, including through their furnishings.
