

Specialty product family with high performances, dedicated to mobility final applications, with special focus on automotive and tires sector.

Balance® is Versalis' family of ISCC PLUS certified products, the range of "Bio Attributed (BA)" and "Bio-Circular Attributed (BCA)" products made from bio naphtha, and "Circular Attributed (CA)" made with a "recycled oil" (r-Oil), a pyrolysis oil obtained from the chemical recycling process of mixed plastic waste.

ISCC PLUS is a component of the ISCC certification scheme (International Sustainability & Carbon Certification), which is voluntary and allows companies throughout the supply chain to monitor and be able to demonstrate the sustainability of their products through the supervision of sustainability, traceability and mass balance requirements.

AGON™ HCIS X 41HP BA

ISCC+ Bio Attributed Nd-BR with improved performance.

AGON™ SSBR X FZ595 BA

ISCC+ Bio Attributed fn-SSBR with improved performance.

AGON™ SOL X C283 BA

ISCC+ Bio Attributed solution styrene-butadiene partial block copolymer with improved performance for styrenics modification.
