

# Versalis e<sup>®</sup>

## Oilfield Chemicals Portfolio

The Versalis e<sup>®</sup> range of oil and gas production products.

Product class name	Description and information
Versalis e <sup>®</sup> - asph	Asphaltene treatment agent to avoid, control and/or limit deposits
Versalis e <sup>®</sup> - bioc	Treatment to avoid the formation of biofilm
Versalis e <sup>®</sup> - cori	Inhibition agent used to prevent corrosion
Versalis e <sup>®</sup> - anfo	Defoaming treatment agent preventing and resolving foaming
Versalis e <sup>®</sup> - embr	Emulsion treatment agent used to prevent and resolve various types of emulsion
Versalis e <sup>®</sup> - padi	Treatment agent preventing and avoiding wax deposits
Versalis e <sup>®</sup> - pour	Treatment agent acting as pour point depressant and contributing to fine restartability
Versalis e <sup>®</sup> - drag	Treatment agent acting as drag reducer, It allows to pump through the fluids at lower pressure drop
Versalis e <sup>®</sup> - scin	Anti-scales treatment agent preventing scales formation/deposits
Versalis e <sup>®</sup> - idra	THI (methanol and MEG) and LDHI (AA and KHI) preventing hydrate formation and related plugging/damage
Versalis e <sup>®</sup> - H <sub>2</sub> Sc	Hydrogen sulfide scavenger for HSE risk mitigation and sour corrosion prevention
Versalis e <sup>®</sup> - oxsc	Oxygen scavenger for corrosion and microbiological proliferation prevention
Versalis e <sup>®</sup> - solv	Cleaning treatment agent for the removal of various deposits
Versalis e <sup>®</sup> - dete	Organic or water based solvent
Auxiliary Chemicals	A dedicated set of products for plant utilities, treatments, maintenance and cleaning
